Hi,

I've included Tonya and Chuck because they started finding the paper docs for this FOIA request .

We invited the requester to do a file review , but she has declined. I would just photocopy the 600 pages of responsive record -- but I think the RPM (Rod Lobos in Hanford) might want a copy as well.

There are 5 to10 records to Index and Scan -- one very large document from the NPL listing. Please let me know who will work on this; I will deliver the files back to that person . I would like the work completed by August 17th.

Thank You, Noel
